

Leaflet on filling up yellow sacks and yellow bins for plastics in the administrative district of Calw

The following items, for example, may be placed in the yellow sack/yellow bin for plastics:

Sales packaging made of plastics, composite materials and metals. The packaging needs to be empty and only roughly cleaned, without using water (e.g. yoghurt pots should simply be scraped out and left to dry).

- Plastic packaging (e.g. yoghurt pots)
- Drinks cartons (e.g. for milk and fruit juices)
- Packaging where the reverse is made of paperboard and the front of plastic
- Spray cans (empty, e.g. for hair spray)
- Food cans and drinks cans
- Twist-action closures (e.g. jam jar lids)
- Polystyrene packaging
- Foil, plastic bags

The following items should NOT be placed in the yellow sack/yellow bin for plastics:

- Everyday items made of plastic, such as toys or plastic dishes (residual waste)
- Nappies (residual waste)
- Heavily contaminated or half-full packaging (residual waste)
- Construction polystyrene (residual waste)
- Waste paper (recycling bin)
- Glass (recycling bin)
- Floppy disks (residual waste)
- Disposable syringes (residual waste)
- Sanitary towels (residual waste)
- Clothes (old clothes collection)
- Paints, acids, leaches (hazardous waste collection)

Residual waste does not belong in the yellow sack for plastics!

Please note:

The refuse collection dates for the yellow sack/yellow bin for plastics are given in the waste calendar issued by the waste management company. Any yellow sacks for plastics that are not filled correctly will not be picked up. They may only be handed over as residual waste at the recycling centres for a fee. Correctly filled yellow sacks for plastics may be handed in at the recycling centres free of charge by customers
